Gala

8 october 2022

Be part of something amazing

Since 2008, families have travelled from all-over Melbourne to access the centre-based autism services provided by Abacus Learning Centre.

Delivering outcomes for autistic children

The benefits of providing crucial therapy at a young age are based on extensive clinical experience and research. The team at Abacus focus on improving a child's ability to more effectively learn in social and educational settings.

Playful with a purpose

Ensuring every child has fun and is motivated to learn is a key element of each tailored program designed to meet the needs of the individual student and their families.

Helping more autistic people connect, communicate and learn

Demand for autism services continues to grow and Abacus hopes to expand and develop more centres to continue making a positive and widespread impact on the lives of autistic people.

Registered charity and for-purpose organisation

Abacus relies on the generosity and kindness of the wider community to donate and contribute to the centres through fundraising, in-kind support, bequests and grants.

Ensuring the ongoing success of the centre

Since 2013, the 'Achieving with Autism' Gala Dinner has been pivotal in helping raise much-needed funds. Throughout the evening, supporters enjoy the fine food, auctions, raffle draw and entertainment whilst celebrating the achievements of the centre.

We hope you will consider supporting Abacus to help them continue their amazing work.

An event four years in the making
